glycogen operon protein Glgx - Deinococcus radiodurans (strain R1)
C.Species: Deinococcus radiodurans
C.Species: Deinococcus radiodurans
C.Date: 03.Dec-1999 #sequence_revision 03-Dec-1999 #text_change 17-Mar-2000
C.Accession: B75540
R.White, O.; Elsen, J.A.; Heidelberg, J.F.; Hickey, E.K.; Peterson, J.D.; Dc, M.; Shen, M.; Venathevan, J.J.; Lam, P.; McDonald, L.; Utterback, T.; Zale S.; Smith, H.O.; Venter, J.C.; Fraser, C.M.
Science 286, 1571-1577, 1999
A;Title: Genome sequence of the radioresistant bacterium Deinococcus radiodu A; Reference number: A75250; MUID:20036896
A;Accession: B75540
A;Residues: 1-720 <WHI>
                                                                                                                                                                                                                                                                                                                                                                  RESULT

Scoring table:

Searched: 93435 seqs, 34255486 residues BLOSUM62 Gapop 10.0 , Gapext 0.5

93435

Total number of hits satisfying chosen parameters:

Minimum DB seq length: 0
Maximum DB seq length: 2000000000

Post-processing: Minimum Match 0% Maximum Match 100% Listing first 45 summaries

Database :

SwissProt_39:*

Pred. No. is the number of results predicted by chance to have a score greater than or equal to the score of the result being printed, and is derived by analysis of the total score distribution.

Gen. Genet. 254:469-478(1997).

-I- FUNCTION: HAS A HIGH RATE OF HYDROLYSIS FOR GLYCOGEN. DOES NOT CLEAVE PULLULAN. HAS A PH OPTIMUM OF 6-7.

-I- CAPALYTIC ACTIVITY: HYDROLYSIS OF 1,6-ALPHA-D-GLUCOSIDIC BRANCH LINKAGES IN GLYCOGEN, AMYLOPECTIN AND THEIR BETA-LIMITS DEXTRINS.
-I- SIMILARITY: BELONGS TO FAMILY 13 OF GLYCOSYL HYDROLASES, ALSO KNOWN AS THE ALPHA-AMYLASE FAMILY. ISOAMYLASE SUBFAMILY.
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        This SWISS-PROT entry is copyright.
